

IP-MobileCast™

Set-top Box Quick Start Guide

USING THE SET-TOP BOX:

1. Make sure the Media Server has been powered on for **at least 5 minutes**.

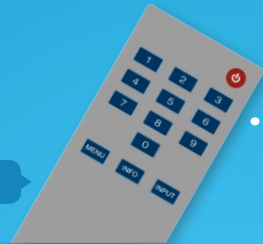

If the Media Server is powered off, make sure the Set-top Box is powered off (the status light on the front of the Set-top Box should be lit red) then turn on the Media Server and wait 5 minutes.

The Media Server streams content to the Set-top Box.

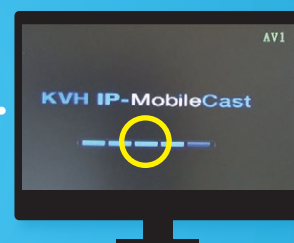

2. Turn on the TV and select the video input that is connected to the Set-top Box.

Your TV remote

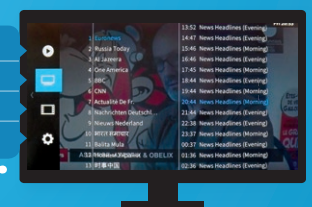

3. Press the power button on the Set-top Box remote control. Then wait up to 7 minutes for the Set-top Box to initialize.

If the remote doesn't work, make sure the front of the Set-top Box isn't blocked and check the batteries in the remote.

The status light on the front of the Set-top Box should be lit green and blue progress bars should appear on the TV screen.

4. When initialization is complete, press the PORTAL button on the remote to access the onscreen menu.

5. Use the arrows and OK button to navigate the menu.

Select **TV Channels** to browse programming by channel or through the program guide.
Select **Video on Demand** to access programming by category.
